Seminar announcement/Annonce de séminaire**

Title/Titre : Photonic Nanostructures and Devices based on Photonic Crystals

Speaker/Orateur : Professor Susumu Noda
IEEE LEOS Distinguished Lecturer
Department of Electronic Science and Engineering,
Kyoto University, JAPAN

Date : Monday June 27 at 11:00 a.m /Lundi 27 juin 2005 à 16 h.

Location/Lieu :
Ecole Nationale Supérieure des Télécommunications,
46 rue Barrault, 75634 Paris Cedex 13
Room/Pièce : B553
Getting there : <http://www.enst.fr/en/tools/address/>
Comment s'y rendre : <http://www.enst.fr/outils/adresse/>

Abstract/Résumé :

Photonic crystals, in which the refractive index changes periodically, provide an exciting new tool for the manipulation of photons and have received keen interest from a variety of fields. In this talk, I will review the recent progresses and future prospects of photonic crystals and their applications to photonic nanostructure devices.
